Research Interests

Algorithms and theory in Natural Language Processing: Structured Prediction; Parsing; Online Learning; Machine Translation.

Education

2010–Present **Ph.D. Student**, *Graduate Center, City Univ. of New York*, New York, NY.
Mentor: Professor Liang Huang
Major: Computer Science GPA: 3.85

2006–2010 **Bachelor of Engineering**, *Univ. of Science and Technology of China*, Hefei, China.
Graduated with Honors
Major: Computer Science

Experience

Research

2012–Present **Research Assistant**, *City Univ. of New York*, New York, NY.
Focused on Structured Prediction problems in Natural Language Processing.
- Investigated incremental parsing with best-first search strategy.
- Studied online learning with large margin and kernel.
- Explored parallelizing online learning for large-scale NLP tasks like dependency parsing.

Summer 2013 **Research Intern**, *IBM T.J. Watson Research Center*, Yorktown Heights, NY.
Multilingual Natural Language Processing Group
Adapted large-scale discriminative training to syntax based machine translation system.

Teaching Assistant

Fall 2013 Programming Languages, *Graduate Center, CUNY*.

Spring 2013 Machine Learning, *Graudate Center, CUNY*.

Fall 2012 Python Programming, *Queens College, CUNY*.

Honors & Awards

2010 & 2011 **Science Fellowship**, *Graudate Center, CUNY*.

2009 **National Scholarship**, *Ministry of Education of China*.

2008 **Outstanding Student Scholarship**, *USTC*.
